Dual Diagnosis Unit Co-Occurring Disorders

Behavioral Hospital of Longview offers inpatient treatment to individuals ages 18 and older, who suffer from drug and/or alcohol abuse with a co-occurring psychiatric illness in an inpatient hospitalization setting. The program is designed for individuals exhibiting a combination of the following symptoms:

- Illicit Drug or Alcohol Abuse
- Prescription Medication Abuse
- Bipolar Disorder
- Depression
- Psychosis
- Panic Attacks/Anxiety Disorders
- Obsessive/Compulsive Behavior
- Post Traumatic Stress Disorder
- Depression due to Chronic Pain
- Excessive Grief

We offer an integrated treatment program that is designed specific to the individual needs of the patient, to promote optimal results.

Our multi-disciplinary team consists of Psychiatrists, Social Workers, Nurses and Mental Health Therapists who are trained in the care of Dual Diagnosis.

Our Treatment Consists of:

- Detoxification
- Psychiatric Assessment
- Medication Evaluation & Management
- Group, Individual, and Family Therapy
- Illness Education
- 12-Step Programs
- Relapse Prevention
- Nutritional Consultations
- Recreational Therapy
- Links to Community Based Services
- Coordination With Primary Care Physicians

Preparation for a safe and effective transition back to the community begins on the first day.

Adult Psychiatric Treatment

Behavioral Hospital of Longview provides inpatient treatment for patients ages 18 and older with psychiatric disorders in a safe, secure setting. Personalized treatment is provided by a multidisciplinary team, using a problem-oriented approach tailored to the needs of the individual. The program is designed for individuals exhibiting any of the following symptoms:

- Harm to Self or Others
- Bipolar Disorder
- Depression
- Psychosis
- Panic Attacks/Anxiety Disorders
- Obsessive/Compulsive Behavior
- Post Traumatic Stress Disorder
- Depression due to Chronic Pain
- Excessive Grief

Older Adult Services

Our older adult program provides quality assessment, diagnosis, stabilization and treatment for older adults with acute psychiatric issues which require inpatient hospitalization. Our Treatment includes a focus on kindness, empathy, dignity and respect.
